

TOP SECRET
OXCART/TRINE

19 February 1968

MEMORANDUM FOR: Deputy Director for Science and Technology

OXCART mission BX6853 was flown on 19 February 1968 against targets of interest in North Korea. This was the twenty-seventh mission to date and the second mission over North Korea.

Aircraft departed Kadena AB at 0159Z and accomplished two passes over North Korea. The first pass was over Wonsan Harbor and the second pass just North of the DMZ. Mission duration was three hours and thirty-nine minutes.

Pilot reports no EWS activity during the entire mission.

Weather was generally good with increasing cloudiness toward the western coast. Good photographic results from mission take are expected.
